

Street Light Issues

If you experience street light outage, or want to report a burnt or blinking street light in your neighborhood, please call Southern California Edison at 1-800-655-4555 and follow the electronic prompt messages. Please have exact location of light pole or pole number. The pole number is the aluminum band on the front of the pole usually starting with an "E".

Street Light Glare Shields

If you need a glare shield installed on your street light, please call Public Works at 310-544-5253 and request a glare shield. Your request will then be evaluated, and if approved an order would be placed with Southern California Edison. Please have exact location of light pole or pole number. The pole number is the aluminum band on the front of the pole usually starting with an "E".
