

Marymount College Facilities Expansion Project Update

At its January 27th meeting, the Planning Commission continued the public hearing to March 10th with the intent to review the responses to the questions to the Final EIR and to hear a presentation on the Traffic and Circulation section from the environmental consultant team (RBF Environmental Consulting).

The College is requesting that the March 10th meeting be continued because Dr. Brophy cannot be present at the meeting.

Since the Planning Commission continued the public hearing to a date certain, March 10th, only the Planning Commission is able to continue the public hearing. As such, the Commission will be asked at the March 10th meeting to select a date for the continued public hearing (with no anticipated discussion on the merits of the project or the project EIR). This will be noted in the March 10th Staff Report. Additionally, Staff will be asking the Commission to set a project schedule for the remaining anticipated hearings.

The March 10th Planning Commission Staff Report on the request to continue the public hearing will be posted on the City's website on Thursday, March 5th.

Questions on this matter or on the proposed project should be directed to Ara Mihranian, Project Planner, at 310-544-5228 or via email at aram@rpv.com.
