

CANYONS ECOLOGICAL RESERVE

TRAILS OPEN TO
THE PUBLIC DURING
THE TEMPORARY
TIME-OUT

On November 20, 2007, the City Council established a temporary moratorium on trail uses within the Canyons Ecological Reserve to allow the re-establishment of the protected habitat in this area. The temporary moratorium restricts access by all user groups (pedestrians, equestrians, and bicyclists) to certain areas within the Canyons Ecological Reserve with the exception of the fire roads and the area adjacent to the Forrestal Ecological Reserve, as shown on this map. The temporary moratorium is in effect until further direction by the City Council.
