
Recycling Services for Multi-Family Complexes

Residents in multi-family complexes can take advantage of the City's single-family residential recycling program by contacting EDCO/UWS to establish the same cart service as enjoyed by single-family residences. Depending on your needs, EDCO/UWS will provide you with the right number of blue recycling carts for your complex.

Items that can be recycled include:

- Cans (aluminum, tin, and steel)
- Cardboard (flatten all boxes, please)
- Glass bottles and jars (all colors)
- Mixed paper (file folders, junk mail, etc)
- Newspapers (including the inserts and coupons)
- Plastic containers (marked #1 through #7 or labeled "California Redemption Value")
 - Please note that Styrofoam™ is NOT included in the list of recyclable containers
- Telephone books and magazines
- White and colored paper (computer, writing)

With funding from [CalRecycle](#), the City is able to help complexes start or improve their recycling programs by providing in-unit and common area recycling containers, outreach and educational material, and support for property managers.

Contacts

General program information and outreach material - Public Works Department 310-544-5245 or Lauren@rpv.com

Recycling Service - EDCO 310-540-2977 or UWS 800-631-7016

In-unit recycling containers - property manager
