

After the November 2011 General Municipal Election, the Ad Hoc Beautification Subcommittee comprised of two City Councilmembers will begin recruitment for other members of the Subcommittee. The members will include one representative from the Council of Homeowners Associations (CHOA); one representative from a homeowners association (HOA) that is not a member of CHOA; and three representatives from neighborhoods that are not represented by a HOA. Draft program guidelines will be prepared in compliance with State law and City purchasing policies. The Subcommittee would then work with staff and seek public input to prioritize beautification projects to be funded by the Recycling Rebate (CRV) revenue.
