

## **Lower Hesse Park & Grandview Park Improvement Projects**

The City of Rancho Palos Verdes is in the process of improving Lower Hesse Park and Grandview Park. Park improvement plans are intended to enhance the accessibility, aesthetic condition, and recreational opportunities available at both parks.

During this conceptual design process, the City has worked with its landscape architect consultant to perform site analyses, hold community workshops to share concepts and collect community input, and create conceptual designs of the two parks. The conceptual designs for Lower Hesse Park were reviewed by City Council on November 16, 2010 and the conceptual designs for Grandview Park were reviewed by City Council on December 7, 2010. City Council directed staff to proceed with the environmental review process for the Pacific View conceptual plan for Lower Hesse Park, and the Sycamore conceptual plan for Grandview Park. To learn more about the park improvement projects, join the project listserv by clicking [here](#), or emailing the Recreation and Parks Department by clicking [here](#).
